With this idea Boing was born as a themed animated channel that broadcasts children's content 24 hours a day. But now, the Mediaset-owned chain has made the leap from the small screen to smartphone and tablet, offering all its programs for free through this Android: Boing App. Netflix app for kids. With this, children can not only access the live broadcast of the TV channel that broadcasts via DDT, but will also be able to choose what to watch on demand, choosing any of the episodes of the dozens of series with which it has: Doraemon, Gumball, Ben10, The Supergirls and more. In this we must also add the ability to participate in online games set in this universe. Basic features Access Boing content wherever and whenever you want. All episodes were viewed available on demand. List of games related to your favorite series. New content is added regularly. Set up the app to stream only when it's connected to WiFi. The best IPTV applications on Android to watch live Android TV devices have gradually assimilated traditional means of entertainment and communication as ... More The Champions League is back! Top 5 Android apps to watch online football The wait has been long after the World Cup in Russia. And although the football fans had some comfort ... More Thinking About The Little Ones of the House, the cartoon chain owned by Mediaset Spain, Boing, launches its new app that bears the same name and whose main goal is to allow children of the house to see their favorite series and their games on Android mobile devices. In this app you will be able to access all the children's content offered by this channel 24 hours a day. The cubs will be able to watch their favorite chapters online streaming, such as those of We Are Bears, Adventure Time, Ben 10, among many others. You already have a new way to entertain the little ones, download this app, enjoy its content and share it with all your friends. The app that all the kids were waiting for Why will download it for free on your mobile device and without registration, your kids will start enjoying everything this tool offers you. On their home screen you can find the full episodes of their favorite series mainly of Cartoon Network. Some of them are: Apple and Onion, The Amazing World of Gumball, The Supergirls, We Are Bears, The World of Craig, Ben 10, Teen Titans Go!, among others. An interesting fact is that this app you will find exclusively the Ninth Season of Ninjago, the animated series whose protagonists are 4 warrior warriors that catch the attention of young and old as well. When you select a series, you will notice that it has 3 sections: Episodes, here you will find each of the chapters that has the children's series. Extras, this section has additional content from the same series, such as: creation, songs, special episodes and clips. In the Games section it contains different types of easy-to-engineer games, tailored for children to have fun. Another option offered by this amazing app is to allow you to send emails to your friends and family, share with them some TV series or games that please the little ones at home. In addition, Boing App lets you choose on-demand content your kids want to see. The excellent features of the Boing App The interface are super simple, ideal for children to handle. It has a feature so parents can choose which order their children can and cannot watch, so their children are protected. It gives you the opportunity to choose from 40 different games, the vast majority of them taken from most famous series. All episodes of the cartoon network are broadcast full and in Spanish, however, if they are original versions they may be in English. It offers you the ability to participate in many of the online games so that the entertainment is greater. Boing App is a great way to entertain your kids while you're at work or other activities. Choose the episodes and games that can watch and relax me
